The market after the first hour was less active than in the early dealings Government bonds were unchanged Other bonds were somewhat lower.

The opening showed moderate decilnes. Ice preferred lost 1 per cent Tennessee Coal and Iron, Southern Pacific lost %. Elsewhere the loss averaged %.

STOCK COMPANY MAY CONTROL BIG PLAN

Connecticut Pie Company Gives Optic to Prospective Purchasers of the Business.

Preparations are under way for the U purchase of the Connecticut Pie Company, of Washington. A three-months' option on the property is held by William E. Van Duesan, manager of the company, who anticipates buying the establishment for \$125,000. The present

owner is Henry Copperthite.

The plant of the company is at Thirty-second and O Streets, The building was recently enlarged by Mr. Copperthite, and the bakery is now rated as the third largest in the country, having a maximum output of 35,000 ples daily. If the deal is consummated the new owners will incorporate themselves into

a stock company. The change of owner-ship will probably go into effect May 1, 1994. Among those interested in the project besides Mr. Van Deusan are R. D. Weaver, W. J. Stillman, T. W. Offutt, E. T. Simpson, and Rudolph Behrels. It is probable that Mr. Copperthite will retain an interest in the company as a stockholder. He will retire from active business after the deal has been completed.

The sale includes the real estate or which the bakery stands. WASHINGTON STOCK MARKET

It is interesting to note the amount of capital of the mammoth institutions engaged in the banking business in Asia. While the Hongkong and Shanghal banking corporation, with an uninter-upted success of a half a century behind it, heads the list, the American institutions make a respectable figure, the capital, surplus, and undivided profits of the International Banking Corporation and Guaranty Trust Company, being, respectively \$8,000,000 and \$7,500,000. NEW YORK STOCK MARKET. CURRENT NEWS AND GOSSIP OF INTEREST TO INVESTORS

The bucket shops are said to have made a killing in cotton. This break has wiped out their clients almost com-pletely.

It is not improbable that some of the liquidation in cotton in the last few days has been necessitated by losses in curred by the unprecedented over-specu-lation in these staple commodities.

The steadiness of the United States Steel stocks is again attracting much attention, and views as to the iron and steel trade are becoming more hopeful.

It is the usual history of an outbreak of war, such as is now expected in the Far East, so far as its effect upon finan-cial markets is concerned, that it is the signal for a sharp reversal of the course which these markets had hitherto been pursuing. The tendency of Wall Street in particular to discount events of this kind is well known.

This Pennsylvania loan of \$50,000,000 does not involve the speculative possi-bilities that would be opened up by an

The public's contribution to the selling per cent in 4½ per cent bonds and 30 this week has been insignificant. per cent in 4½ per cent bonds and 30 per cent in new stock for the existing preferred stock, and 20 per cent of new stock for the existing common stock. The objection is that 70 per cent in new bonds in exchange for the preferred stock is too much, and it is probable that the proportion will be scaled down. It is said that there has been quiet inside selling of Realty preferred for some time past. Most of the orders appear to have been coming from the pool.

The Pennsylvania Railroad Company tions on such a gigantic scale in the last two years that some people are, of property as a dividend institution, but as the Pennsylvania company is an enormous concern, its transactions that run into the many millions are not disquieting to interests who appreciate the nature of the improvements on which the road is spending money and the position this road occupies as a factor in the industrial development of the United States.

It is not unlikely that the notification which has been given by the Secretary of the Treasury to depository banks regarding the withdrawal of funds incibilities that would be opened up by an issue of new stock at a subscription price below the market. When the last issue of new stock was brought out at 120 the old stock was selling considerably higher in the market, and to sell it short and make deliveries with the new is stock when received was a calculation rather than a speculation. Stock sold short on this loan, however, will have to be covered out of the existing supply in the other case the supply was entarged.

Of the Treasury to depository banks regarding the withdrawal of funds incident to the Panama Canal payment will induce the purchase by banks outside. New York of exchange on that center, in order to transfer to their correspondents in New York an amount of money equal to the amount they will be compelled to pay out under the call of the Government. Stock sold short on this loan, however, will have to be covered out of the existing supply. In the other case the supply was enlarged.

It is understood that opposition has developed to the reorganization plan providing for the exchange of United States Realty shares on the terms of 70 level.
